

1. Aims

This policy aims to ensure that:

- Intimate care is carried out properly by staff, in line with any agreed plans
- The dignity, privacy, rights and wellbeing of every child are safeguarded
- Pupils who require intimate care are not discriminated against, in line with the Equality Act 2010
- Parents/carers are assured that staff are knowledgeable about intimate care and that the needs of their child are taken into account
- Staff carrying out intimate care work do so within guidelines (i.e. health and safety, manual handling, safeguarding protocols awareness) that protect themselves and the pupils involved

Intimate care refers to any care that involves toileting, washing, changing, touching or carrying out an invasive procedure to children's intimate personal areas.

2. Legislation and statutory guidance

This policy complies with the Department for Education (DfE) statutory safeguarding guidance:

- [Keeping Children Safe in Education](#)
- [Early Years Foundation Stage \(EYFS\) statutory framework](#)

3. Role of parents/carers

3.1 Seeking parental permission

For children who need routine intimate care (e.g. for nappy changes or toileting accidents), parents will be asked to:

- Sign a consent form
- Provide an adequate supply of necessary items (e.g. nappies, wipes, creams, changes of clothing)

For children who need routine or occasional intimate care (e.g. for toileting or toileting accidents), parents/carers will be asked to sign a consent form.

For children whose needs are more complex or who need particular support outside of what's covered in the consent form (if used), an intimate care plan will be created in discussion with parents/carers (see section 3.2 below).

Where there isn't an intimate care plan or parental consent for routine care in place, parental permission will be sought before performing any intimate care procedure.

If the school is unable to get in touch with parents/carers and an intimate care procedure urgently needs to be carried out, the procedure will be carried out to ensure the child is comfortable, and the school will inform parents/carers afterwards.

3.2 Creating an intimate care plan

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (where possible) and any relevant health professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately.

Subject to their age and understanding, the preferences of the child will also be taken into account. If there's doubt whether the child is able to make an informed choice, their parents/carers will be consulted.

The plan will be reviewed twice a year, even if no changes are necessary, and updated whenever there are changes to a pupil's needs.

See appendix 1 for a template plan.

3.3 Sharing information

The school will share information with parents/carers as needed to ensure a consistent approach. Parents/carers are expected to also share relevant information regarding any intimate matters as needed.

4. Role of staff

4.1 Which staff will be responsible

Any roles who may carry out intimate care will have this set out in their contract or job description. This includes teachers, teaching assistants, leaders and members of office staff.

All staff who carry out intimate care will have been subject to an enhanced Disclosure and Barring Service (DBS) with a barred list check before appointment, as well as other checks on their employment history.

The Designated Safeguarding Lead will:

- Oversee the implementation of this policy
- Ensure staff receive appropriate training and support
- Oversee the development of individual intimate care plans
- Act as a point of contact for parents/carers/staff regarding intimate care concerns

4.2 How staff will be trained

Staff will receive:

- Training in the specific types of intimate care they undertake
- Regular safeguarding training
- If necessary, manual handling training that enables them to remain safe and for the pupil to have as much participation as possible

They will be familiar with:

- The control measures set out in risk assessments carried out by the school
- Hygiene and health and safety procedures

They will also be encouraged to seek further advice as needed.

5. Intimate care procedures

During nappy changes, toileting and any intimate care procedure, we will balance children's privacy with safeguarding and support needs.

5.1 Staffing

All members of staff performing intimate care procedures have an enhanced DBS with barred list check.

In general, 1 member of staff will be present with each child, except for circumstances where:

- 2 members of staff are needed to:
 - Safely handle a child who needs to be assisted
 - Use equipment such as a hoist
- There is a known risk of false allegations by the pupil

In cases where a pupil needs regular intimate care, where possible, the same member of staff will assist the same pupil each time they need support. We will train 2-3 members of staff per child to cover absences, emergencies and school trips. Where possible, we will ensure that these backup members of staff are also people known to the child.

At Drakelow, male members of staff may be allocated to change female pupils or vice versa. The decision to allocate a member of staff of a different gender to the pupil will be discussed with the parents/carers and pupil, if appropriate.

5.2 Arrangements

Procedures will be carried out in the first aid room or the designated changing area.

Before going to perform intimate care on a child, the member of staff allocated to that child will inform another member of staff of where they are going, and leave doors open as much as privacy allows.

Where possible, they should be within earshot of other members of staff, but the comfort and care of the child should be the priority when choosing a location.

When carrying out procedures, the school will provide staff with:

- Protective gloves
- Changing tables and mats
- Protective aprons

For pupils needing routine intimate care, the school expects parents/carers to provide, when necessary, a good stock (at least a week's worth in advance) of necessary resources, such as nappies, underwear and/or a spare set of clothing.

Any soiled clothing will be contained securely, clearly labelled and discreetly returned to parents/carers at the end of the day.

5.3 Concerns about safeguarding

If a member of staff carrying out intimate care has concerns about physical changes in a child's appearance (e.g. marks, bruises, soreness), they will report this using the school's safeguarding procedures.

Any concerns about the safety or welfare of a pupil will be reported immediately to the local authority's children's social care team.

If a child is hurt accidentally or there is an issue when carrying out the procedure, the staff member will report the incident immediately to the designated safeguarding lead.

If a child makes an allegation against a member of staff, the responsibility for intimate care of that child will be given to another member of staff as quickly as possible and the allegation will be investigated according to the school's safeguarding procedures.

Where the school notices an increasing pattern of soiling instances, it will first hold a meeting with parents/carers and with any other relevant individuals, such as medical professionals involved with the child to discuss why this might be occurring, and how to help the child. If the pattern continues, the school's designated safeguarding lead (DSL) will be notified. If there is other evidence which indicates a safeguarding concern, the DSL may contact the local authority designated officer (LADO), who will consider whether there is a safeguarding issue.

5.4 Specific procedures for nappy changing in nursery/early years and toileting accidents

- Key persons undertake changing young children in their key groups, where possible.
- Changing areas are safe areas for the child.
- Each young child has their own basket/bag with their nappies or 'pull ups' and changing wipes.
- Staff wear PPE while changing a nappy.
- Soiled nappies to be double wrapped and disposed of in a bin – it may be necessary to use external bins if there are a significant number of occurrences in one day.
- Antibacterial Hand Gel is also available for staff members to use.
- In addition, key persons ensure that nappy changing is relaxed and a time to promote independence in young children.

- Young children are encouraged to do as much for him/her as he/she can.
- Hot water and liquid soap is available for hand cleansing following completion of the task. Paper towels are available for drying hands.
- The changing area should be cleansed as appropriate. The caretaker should be asked to provide a deeper clean where appropriate after the children have left.
- Key persons are gentle and positive when changing the child (no negative comment about 'wearing nappies or nappy contents').
- • 'Pull ups'/nappies are disposed of hygienically. Any soil (faeces) in pull ups is flushed down the toilet and the pull up/nappy is bagged and put in the bin.
- Named staff will be identified to provide for children who may need long term intimate care.
- Staff will be supported to adapt practice in relation to the needs of individual children's developmental stages eg. Toilet training.
- Where necessary intimate care plans will be drawn up for vulnerable children as appropriate to suit circumstances of the child's needs.
- Children will be supported to achieve the highest level of autonomy that is possible given their age and abilities.
- Older children access the toilet when they have the need to and are encouraged to be independent.
- Cloth trainer pants and ordinary pants that have been wet or soiled are bagged for the parent to take home.
- Named staff will be identified to provide for children who may need long term intimate care.
- Staff will be supported to adapt practice in relation to the needs of individual children's developmental stages e.g. Toilet training.
- Where necessary intimate care plans will be drawn up for vulnerable children as appropriate to suit circumstances of the child's needs.
- Children will be supported to achieve the highest level of autonomy that is possible given their age and abilities.

Where pupils are starting school without having been toilet-trained, staff will work with the pupil's parents/carers to agree on a care plan.

The school will record the number of soiling incidents in school, and liaise with the pupil's parent/carers about:

- The outcomes of relevant medical appointments attended by the child
- Whether there is a change in the pattern of soiling incidents, at home or at school
- Whether the current plan is working

6. Monitoring arrangements

This policy will be reviewed the designated safeguarding lead annually. At every review, the policy will be approved by the governing body.

7. Links with other policies

This policy links to the following policies and procedures:

- Accessibility plan
- Child protection and safeguarding
- Health and safety
- SEND
- Supporting pupils with medical conditions

Appendix 1: template intimate care plan

PARENTS/CARERS	
Name of child	
Type of intimate care needed	
How often care will be given	
What training staff will be given	
Where care will take place	
What resources and equipment will be used, and who will provide them	
How procedures will differ if taking place on a trip or outing	
Name of senior member of staff responsible for ensuring care is carried out according to the intimate care plan	
Name of parent or carer	
Relationship to child	
Signature of parent or carer	
Date	
CHILD	
How many members of staff would you like to help?	
Do you mind having a chat when you are being changed or washed?

Appendix 2: template parent/carers consent form

PERMISSION FOR SCHOOL TO PROVIDE INTIMATE CARE	
Name of child	
Date of birth	
Name of parent/carers	
Address and contact details	
I give permission for the school to provide appropriate intimate care to my child (e.g. changing soiled clothing, washing and toileting)	☐
I will advise the school of anything that may affect my child's personal care (e.g. if medication changes or if my child has an infection)	☐
I understand the procedures that will be carried out and will contact the school immediately if I have any concerns	☐
I do not give consent for my child to be given intimate care (e.g. to be washed and changed if they have a toileting accident). Instead, the school will contact me or my emergency contact(s) and I will organise for my child to be given intimate care (e.g. be washed and changed). I understand that if the school cannot reach me or my emergency contact(s), if my child needs urgent intimate care, staff will need to provide this for my child, following the school's intimate care policy, to make them comfortable and remove barriers to learning.	☐
